**DRY CREEK VALLEY CABERNET SAUVIGNON
IS AN UNDISCOVERED GEM**

- A perfect microclimate with long days of vibrant sunshine and cool, foggy evenings allows for exquisitely ripened Cabernet Sauvignon grapes.
- Iron rich soils of the western hills are thin and rocky, creating a stressed environment in which to grow grapes with bold, intense flavors.
- Bright cherry fruit framed by floral and spice elements create a wine that speaks to the distinctive soil and growing conditions in our appellation.
- Commemorative packaging to celebrate our family winery's 50th Anniversary.
