- Produced from a single cool-climate vineyard in the famed Russian River Valley, with the ideal microclimate to grow outstanding Chardonnay.
- Harvested from just 30 vine rows at the far northeast side of the vineyard and whole cluster pressed for gentle extraction.
- Select lots were fermented with native yeasts and 100% French oak barrels were used to provide more complex aromatics and flavors.
- Impeccably balanced fruit flavors and superb acidity give our Chardonnay dimension and depth — characters that can only be achieved from a vineyard site and appellation that is second to none.
- Extremely limited production — only 725 cases.
