

## TAYLOR'S VINEYARD SAUVIGNON BLANC MUSQUÉ CLONE

### 2014 TAYLOR'S VINEYARD SAUVIGNON BLANC - MUSQUÉ CLONE - *Dry Creek Valley*

<p>VINOGRAPHY July 2017</p>	<p>Pale gold in the glass, this wine smells of melon and green apple with hints of white flowers. In the mouth, melon and green apple flavors have a faintly sweetish aspect to them, and just slightly less acidity than I would like, but that's typical for this clone of Sauvignon Blanc. Tasty and clean. Ice it and enjoy. 14.1% alcohol. Score: between 8.5 and 9.</p>
<p>WINE ENTHUSIAST December 2016</p>	<p><b>90 Points</b> - Named for the proprietor's daughter, Taylor's is stainless-steel fermented and meant to exude juicy waves of pear, apple and lemon, a fully immersive expression of fruit and minerality. Well balanced, it shows a tease of peach fuzz and the crispness of never having met a swath of oak.</p>
<p>WINE LINES ONLINE June 2016</p>	<p><b>90 Points</b> - Brilliant light straw color. Initial scents of varietal pea pod, grass and herbs lead to sweet floral impressions, followed by white pepper, tangerine, and peach. The Musqué Clone is a type of Sauvignon Blanc, and here it has undergone 100% stainless steel fermentation to preserve the delicate, complex aromatics. Despite this, it has a pleasing plumpness in the mouth and a juicy acidity. Delightful as a sipper, or pair with lighter summer fare and white meat dishes.</p>

### 2012 TAYLOR'S VINEYARD MUSQUÉ - *Dry Creek Valley*

<p>ROBERT PARKER'S WINE ADVOCATE December 2013</p>	<p><b>90 Points</b> - The 2012 Taylor's Vineyard Sauvignon Blanc - Musqué Clone is made from a clone of Sauvignon Blanc called Musqué, which produces more exotic, exuberant, tropical notes. The wine's light straw color is followed by aromas of caramelized figs, honeysuckle and butterfly grapefruit. This dry, medium-bodied, wonderfully textured, crisp Sauvignon Blanc should drink well for 2-3 years.</p>
